Electrolux Professional Line 5000

Electrolux Super "S" Washers 200 G-force Coin/Card

Save up to 30% on water – automatically. They can even talk and text message you!

Electrolux Professional 200 G-Force high-speed extraction washers minimize drying time and provide significant electrical and gas savings. Self-service laundries benefit from faster throughput (freeing up dryers, folding tables and parking spots) which creates higher profits. Your customers can even receive a text message (option) notifying them when their wash is done and ready for unloading! Increase your profits and create customers for life with the unique features of Electrolux Professional washers.

Features and Benefits:

- AWS (Automatic Water Savings) - Save up to 30% on water with AWS, automatically. With every wash cycle, AWS determines the actual weight of the load and adds precisely the right amount of water significantly reducing water consumption and energy costs
- Extremely low water and energy consumption
- Convenient four compartment detergent box
- Larger and more secure coin box
- USB in coin box for easy access and programming
- High extraction force removes more water, saving energy & time in dryer
- Heavy-duty construction with robust steel door and lock, hinges set wide apart and door locked through entire wash cycle
- Stainless and galvanized steel in all vital parts for maximum rust protection
- SuperBalance guarantees the correct extraction force, longer machine life
- Sanitizing Rinse for greater customer satisfaction and additional revenue
- Single phase electrical for easy installation & lower costs
- Stainless steel front panel
- Drain pump
- Text messaging option
- Voice guidance option

Compass Pro microprocessor offers:

- Large display and one control knob for easy program selection
- More than 20 languages available – displays two languages, simultaneously
- Real time clock for time of day pricing, happy hour pricing and promotions
- Revenue generating quick selection and option buttons for the most frequently used wash programs and options
- Detailed user statistics and programmability

Available in 20, 25, 30, 45, 62 & 77 lb. capacities. Vertical blue wave front panel standard. Stainless available. Most sizes available in 220 or 120 volt, single phase.

Electrolux models are designed to save water and energy and achieve impressive Modified Energy Factor (MEF) results.

Designed by experts. Inspired by you.

Refer installation and servicing to qualified, licensed personnel. Always read installation and operating manuals and consult local codes before installation. Protect machines with properly rated, common-trip, circuit breakers ONLY. Warranty void if not properly installed. Solid-mount machines require a concrete foundation, and are not suitable for upper-floor or above-basement installations. Contact us for more information and for availability of machines for electric services not listed. Specifications subject to change without notice. Laundrylux assumes no responsibility for errors or omissions in this information.

Electrolux Professional Line 5000 The all-in-one business solution for your self-service laundry.

Greatest flexibility with Compass Pro®

- Real-time clock for time of day & happy hour pricing
- Multi-language menu selection
- Text & voice guidance options
- Easy to program, easy to use

Extended lifetime with Power Balance™

- Less maintenance costs
- Less vibration
- Maximum water extraction
- Lower energy costs

Cost savings in water and energy with Automatic Water Savings (AWS)

- Determines load weight and adds precisely the correct amount of water
- Up to 30% water savings - automatically
- Less water to heat
- Reduces water and energy consumption

Please contact your local authorized Electrolux Professional Distributor.
