Electrolux Super "S" Washers 200 G-force for OPL

Electrolux smart washers will forever change the way you do laundry

Imagine a washer smart enough to weigh the load size and add precisely the correct amount of water. Imagine a laundry chemical controller smart enough to adjust dosing for accurate water ratio each time.

Electrolux Professional washers do all that and more! An estimated 60-70% of washers are underloaded, wasting water, chemicals, and energy. That's why Electrolux developed Automatic Water Savings (AWS), a unique feature that automatically matches water consumption to load size. Combine that with SmartDosing which adjusts laundry chemicals to water ratio, and you will see immediate savings and superior wash results – every time, automatically.

Features and Benefits:

Electrolux Professional 200 G-force high-speed extraction washers minimize drying time and provide significant electrical and gas savings. On-premises laundries benefit from higher productivity and lower costs. On-premises laundries can go right to flatwork finishing equipment after conditioning items in the dryer. You'll get superior results while saving valuable time and money.

- Save up to 30% on water with AWS, automatically
- Smart Dosing automatically adjusts the ratio of laundry chemicals to water resulting in lower costs and a superior wash.
- Convenient 4-compartment supply dispenser
- Provisions to connect up to 5 liquid supplies
- USB in front for easy access and programming
- Single phase 120 or 220 volt electrical service reduces installation costs
- Heavy-duty construction with robust steel door and lock, hinges wide apart
- Stainless and galvanized steel in all vital parts for maximum rust protection
- Super Balance guarantees the correct extraction force, longer machine life
- External liquid manifold improves reliability, workflow

Compass Pro microprocessor offers:

- Up to 55 programs, 15 custom
- Large display and one control knob for easy program selection
- More than 20 languages available - Displays 2 languages simultaneously
- Smart Start - real time clock for delayed start
- Detailed user statistics and programmability

Available in 20, 25, 30, 45, 62 & 77 lb. capacities. Vertical blue wave front panel standard. Stainless available. Most sizes available in 220 or 120 volt, single phase.

Electrolux models are designed to save water and energy and achieve impressive Modified Energy Factor (MEF) results.

Designed by experts. Inspired by you.

Refer installation and servicing to qualified, licensed personnel. Always read installation and operating manuals and consult local codes before installation. Protect machines with properly rated, common-trip, circuit breakers ONLY. Warranty void if not properly installed. Solid-mount machines require a concrete foundation, and are not suitable for upper-floor or above-basement installations. Contact us for more information and for availability of machines for electric services not listed. Specifications subject to change without notice. Laundrylux assumes no responsibility for errors or omissions in this information.

Electrolux Professional Line 5000 The all-in-one business solution for your self-service laundry.

Greatest flexibility with Compass Pro®

- Real-time clock for time of day & happy hour pricing
- Multi-language menu selection
- Text & voice guidance options
- Easy to program, easy to use

Extended lifetime with Power Balance™

- Less maintenance costs
- Less vibration
- Maximum water extraction
- Lower energy costs

Cost savings in water and energy with Automatic Water Savings (AWS)

- Determines load weight and adds precisely the correct amount of water
- Up to 30% water savings - automatically
- Less water to heat
- Reduces water and energy consumption

Please contact your local authorized Electrolux Professional Distributor.
