# Simplify the Commercial Laundry Business

Reach entrepreneurial success by partnering with the family that built the industry. Laundrylux is North America's supplier of Electrolux & Wascomat commercial laundry equipment.

Laundrylux's extensive line of commercial laundry equipment and specialty services are designed to maximize the return on investment for laundromat owners, new investors, multi-housing units, route operators, and any business with laundry needs.

From financing to repairs, businesses can partner with Laundrylux to leverage over 60 years of industry experience. And as a family-owned and operated company, your business will receive the personalized care and attention it deserves to ensure your ongoing success.

## Laundromat and Equipment Financing

In-house financing services remove complex credit barriers for faster approvals and better rates than third-party lenders.

## Real Estate Services

Strategic real estate services help laundromat owners find and select the best locations to start and expand their business.

## Equipment Rental

Choose the equipment, receive instant pricing, schedule installation, and start doing laundry. It's as simple as that.

## Laundry Management Software

Remotely monitor and manage laundry equipment with the LaundryPulse app for increased savings and informed decisions.

“Laundrylux wasn’t just trying to sell the equipment like a lot of their competitors were. They offered a full set of services including marketing and design, financing, and the best equipment on the market.

WHITFIELD GRAY III,  
ANYTIME LAUNDRY
