

STACKED & SINGLE POCKET
HIGH-EFFICIENCY DRYERS

THE NEXT LEVEL IN DRYER TECHNOLOGY.

Reduce your energy consumption to an all-time low and provide superior linen care with the industry's most advanced commercial dryer.

INNOVATIVE TECHNOLOGY

Maximum Energy Savings

ECOPOWER

Our smart sensor automatically lowers the temperature in the drum when garments are dry. This reduces energy consumption by 15% and eliminates the risk of overheating linens.

Faster, More Consistent Dry

REVERSE DRY

Advanced reversing cylinders prevent balling and wet spots. Our technology provides an even distribution of heat, dramatically reduces drying times, and cuts energy costs by 25%.

America's Easiest Control Panel

COMPASS PRO

Offer a better customer experience and more drying options than any other laundromat in town. With 3 available languages and dual-language display, Compass Pro is a revenue generator that keeps customers coming back week-after-week.
