

TOTAL CONTROL LAUNDRY

The industry's most intelligent on-premise laundry system — engineered for quality, cost savings, and operational efficiency.

 LaundryLux

Smarter. Simpler. That's Total Control.

What if there was a better way to manage your on-premise laundry? **Now there is with Total Control Laundry by LaundryLux.**

With Total Control Laundry, managing your OPL isn't just easier — it's smarter. Powered by Electrolux Professional washers, dryers, and flatwork ironers, LaundryLux designs innovative laundry solutions that put you in command of every detail: performance, productivity, and bottom-line results.

TOP 3 FACTORS TO ACHIEVING A BETTER OPL

1. QUALITY

Total Control Laundry delivers precision cleaning through automation, smart dosing, and simple controls. Your staff gets it right every time — protecting linens and delivering consistent results.

2. COST SAVINGS

Our system reduces water, energy, chemical, and installation costs — cutting overhead expenses across the board. Spend less on back-of-the-house operations while maintaining top-tier performance.

3. EFFICIENCY

High-speed extraction cuts dry time, while advanced features help simplify tasks. Real-time alerts and analytics keep laundry flowing so your staff can get more done with fewer delays.

Consistent Results. Superior Care.

TOTAL CONTROL OVER QUALITY

Delight your guests with consistent quality that exceeds expectations. From precise wash chemistry to the intuitive Clarus Vibe touchscreen, Total Control Laundry ensures every load is processed to exacting standards. Our solutions reduce human error, improve linen care, and deliver reliable performance.

Water & Chemical Balance

Built-in sensors automatically weigh each load and add just the right amount of water and detergent for optimal cleaning and linen protection.

Smart Load Management

Machines alert staff when capacity is reached, preventing overloading, preserving linen quality, and eliminating wear and tear on equipment.

Icon-Based Touchscreen Control

Multi-lingual, 7-inch HD touchscreen control with color display minimizes training and reduces errors, ensuring every wash cycle is consistent.

Integrated Performance

High-speed washers and dryers with reversing drums work together to deliver clean, fresh laundry with less wear on garments and linens.

Advanced Engineering. Measurable Savings.

TOTAL CONTROL OVER COSTS

Our intelligent equipment is engineered for big long-term savings. Reduce water, gas, chemical, and maintenance costs at every step with Total Control Laundry. From installation through daily operation, we can help your facility spend less and boost performance.

Lower Water & Utility Costs

Intelligent wash cycles save thousands of gallons of water each year, lowering operating expenses and helping your facility meet efficiency benchmarks.

Higher G-Force Extraction

Industry-leading 450G high-speed washers remove up to 8-lbs more water per load, cutting dry time, gas use, and labor costs.

Smart Dry Technology

Dryers feature AutoStop, shutting off heat automatically when items reach perfect dryness, preserving linens and saving up to 15% on gas usage.

No Bolt-Down Required

Electrolux washers with soft-mount suspensions reduce install time and infrastructure investment (no expensive concrete needed), saving on labor and facility costs.

More Laundry. Less Hassle.

TOTAL CONTROL OVER EFFICIENCY

Get more done, and always stay on schedule no matter the situation.

Total Control Laundry enables staff to process more laundry, faster, with fewer errors and less downtime. Monitor your laundry operations in real-time with advanced analytics and machine diagnostics using our LaundryPulse dashboard.

Faster Throughput

With shorter dry times, your staff can gain up to 2 extra hours of productivity per shift for folding, ironing, or other back-of-the-house responsibilities.

Automated Chemical Injection

Precise automatic dosing (down to the milliliters) eliminates guesswork, improves results, and reduces overuse of costly detergents and additives.

Operational Independence

Keeping laundry in-house eliminates reliance on outside vendors, reduces the need for large linen inventory, and keeps your business on-schedule.

Flexible Financing Options

Finance brand-new Electrolux Professional equipment with one predictable monthly payment and no upfront investment.

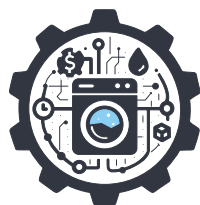

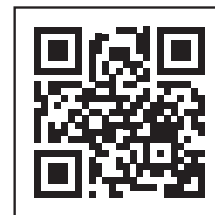

Built to Perform. Backed by the Best.

Our high-performance equipment is backed by a strong warranty to ensure long-term reliability, minimal downtime, and maximum ROI.
